

RuachEdu Exercise Set

Women's Role in Entrepreneurship

Terminale A/C/D

Exercise 1 – Vocabulary Check

Match or explain these words in context: entrepreneurship, leadership, capital, opportunity, skills, mentorship.**Correction.** Learners should define each word in relation to women's role in entrepreneurship and use at least three of them in meaningful sentences.

Exercise 2 – Reading Focus

Write four complete sentences explaining the main message of the chapter and one practical example.**Correction.** A complete answer restates the topic, develops two key ideas, adds one consequence, then ends with a concrete example linked to school, community or national life.

Exercise 3 – Grammar Practice

Rewrite five sentences using modals of ability and advice such as can, could, should.**Correction.** The learner must keep the original meaning while applying the target structure accurately. Grammar accuracy matters, but logical meaning must stay clear.

Exercise 4 – Guided Writing

Produce a newspaper article on the impact of women entrepreneurs in 120 to 180 words.**Correction.** The response needs a clear introduction, organised body, topic vocabulary, at least one example, and a short conclusion. Reward relevance, coherence, accuracy and presentation.

Exercise 5 – Speaking or Translation

Prepare an interview about barriers and solutions for women in business and finish with a 30-word summary or a short translation linked to the topic.**Correction.** The oral answer should be structured, understandable and supported by topic vocabulary. The final summary or translation must remain faithful to the message and grammatically sound.

Teacher note. These exercises are designed for reinforcement, not for mechanical copying. Encourage full sentences, examples and clear justification.
